

COINSTAR

The trusted leader in coin counting for more than 25 years, Coinstar® kiosks provide consumers with the smartest way to unlock the hidden financial value of their coins. No capital investment, no operating costs, and no maintenance fees make Coinstar an easy end-to-end solution for your business.

Dedicated Support

Coinstar is committed to providing the best support so you can focus on your business. With Coinstar, you receive a dedicated account manager, customer service staff available 24/7/365, a loss prevention department to identify fraud and field technicians to service your kiosks.

Network Technology

The kiosks are highly instrumented, with real-time health and network monitoring. This allows Coinstar to avoid downtime and dispatch a technician to service kiosks often before a problem occurs. Kiosk maintenance and upgrades to hardware and software are performed regularly, at no cost to you.

Financially Dependable

Coinstar is financially responsible for the coin-counting business absorbing the impact of variance and fraud. This means that retail partners are paid the amount on the voucher. On-time payments eliminate any uncertainty on float and makes bookkeeping easier, while on-demand kiosk reports allow retailers to balance the books daily.

Built-in Voucher Security

Coinstar vouchers are engineered to protect against fraud:

- Printed with thermal ink
- Perforated edges
- Customized paper won't photocopy
- Specific front-to-back alignment
- Unique barcoding

CONSUMER SERVICES

FOCUS ON YOUR BUSINESS
