## SEARCH MARKETING PROGRAM

## We can make "Google It" mean something

**for your business.** Google processes 40,000 search queries every second of every day. How does your business stack up in search results versus your competitors? Search engines should be sending more traffic to your website than any other channel. Is your website utilizing best-practice search engine strategies? UNFI Digital Marketing will show you how to compete with search marketing and grow your business

Why invest in search marketing? Getting found online is the biggest concern of any business with a website. Search engines drive 93% of all website traffic. 18% of all local searches lead to a sale within one day. 72% of people who visit a physical location will choose one within 5 miles of their original location.

**Search Engine Optimization:** Our SEO experts will help you make your website more visible for Google and Bing and all search directories across the web. We can grow your website traffic via "free" clicks from the major search engines. We can help you learn how to leverage your social media channels to grow your other digital programs.
